

“ Smart, Secure, and Budget-Friendly Chat with

“ Sentichat is your enterprise’s smart, secure, and customizable AI assistant.

✦ Built on AWS and powered by Amazon Bedrock, designed to help your teams find answers, generate insights, and navigate internal knowledge — all within your own cloud.

/ 01 Secure by Design

Deploy on your own AWS environment

/ 02 Cost-Effective

Pay-per-token pricing – only pay what you use

/ 03 Role-Based Access

Ensures only authorized users interact with data

/ 04 Fast, Insightful, Efficient

Summarize reports, answer questions, create documents within seconds

/ 05 Context-Aware

Real-time access to your company knowledge base

/ 06 Fully Customizable

Select your preferred LLM and configure by role or language preference

You own the data. We power the insights.

/ Sentichat in Action

/ Enterprise Chatbot

Personalized internal support for onboarding, technical help, or corporate training.

- / 01 Interactive learning
- / 02 Multi-media content
- / 03 Text-to-speech integration

Summarize

Facility Operations Summary

Key Findings and Recommendations:

Machinery Maintenance

- Delayed maintenance and poor documentation.
- Recommendation: Automate scheduling and audit spare parts regularly.

Employee Safety Training

- Low completion rates, especially for new hires.
- Recommendation: Implement engaging training with mandatory refresher courses.

Can you help me learn how to operate the CNC machine?

Absolutely! Let's get started with the basics of CNC machine operations. Would you like to watch a quick video or read through the steps?

I prefer a video.

Great choice! Here's a short video on CNC machine safety and setup.

02:13

Let me know when you're ready for the next step.

Finished watching.

Awesome! Let's move on to a quick quiz to test your understanding. Question 1: What's the first safety precaution you must take before operating the CNC machine?"

1. Ensure the machine is properly grounded.
2. Check the machine's lubrication levels.
3. Wear proper protective equipment.
4. Verify that the workpiece is secured.

Sentichat

/ Complex Document Summarization

Save time from manual skimming summarizing complex files.

- / 01 Tender documents
- / 02 Legal contracts
- / 03 Safety manuals
- / 04 ESG reports
- / 05 Technical specifications
- / 06 ...and many more.

/ Other Use Cases

/ 01

Internal Search Assistant

"What is the policy on submitting annual leave?"

/ 02

Product Catalog Chatbot

"What's the difference between the Basic and Enterprise plans?"

/ 03

AI Personal Assistant

"Summarize my unread emails from this morning"

Let's talk. Meet Sentichat today.
